ABSTRACT

We are team Theodora, we are here to present a new revolution on Education Sector. We are presenting our new Product **Black Board**

Black Board will be an education support system for Students from STD 1 to 12 especially during this pandemic. We ensure that this platform will help your child in developing a better Academic Progress as well as it helps in explore your child's talent.

Black Board provides live interactive classes for students which will be recorded, parents can review their child's progress. In this platform students will be able to clear their doubts directly with experts , Exams will be conducted to analyse the progress of your child. Definitely Black Board will be a revolution in the Educational Sector.

LET'S EXPLORE THE MIND'S EYE

DIGITAL LIBRARY

Reference textbooks , journals and additional
study Materials will be available in online or
offline.

INDIVIDUAL PORTAL FOR EACH STUDENTS

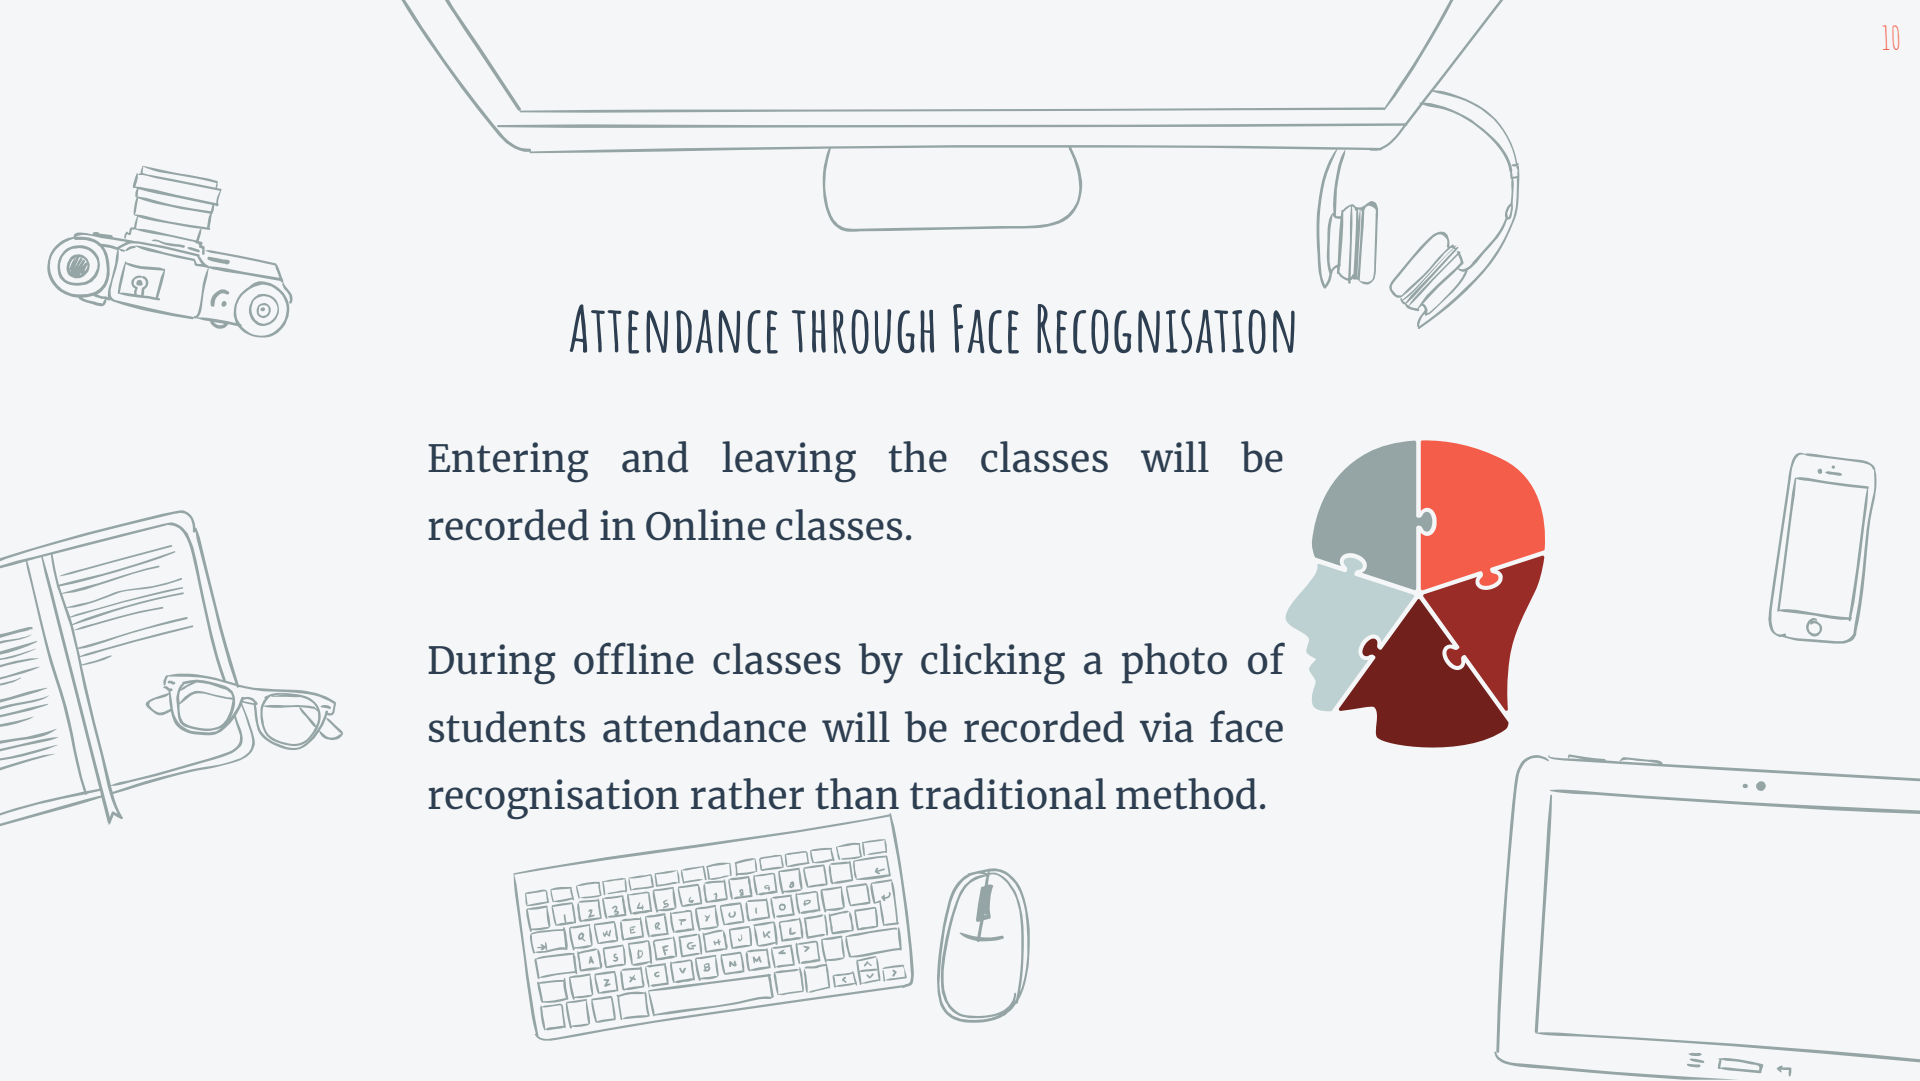

Each student will be provided with an individual portal where they can access their subjects, their progress and a leaderboard will be displayed showing the medals achieved by students on their academics.

Video classes cannot be driven forward. 100% completing of the section will be shown only after the completing the video.

ATTENDANCE THROUGH FACE RECOGNISATION

Entering and leaving the classes will be recorded in Online classes.

During offline classes by clicking a photo of students attendance will be recorded via face recognition rather than traditional method.
